

D-Mon: Horizontale Integration des Ressourcen- und Dienst-Monitoring im D-Grid

- joint proposal of LRZ (project leader), FZJ, and AEI, with AIP and Niedersaechsische Staats- und Universitaetsbibliothek (SUB) Goettingen as associated partners
- project duration: 2 years
- funding for 2+2+1 positions (LRZ, FZJ, AEI)

D-Mon: Proposal for 2nd D-Grid Call

Goals of D-Mon:

- horizontal integration of Grid resource and service monitoring in D-Grid, across a heterogenous D-Grid infrastructure (Globus, UNICORE, gLite)
- vertical integration of information services for Grid monitoring via a common user interface (GridSphere portal)
- embedded support for VO management
